

Wingate Corporate Horizon Fund

June 2025

Overview

The Wingate Corporate Horizon Fund (Horizon or the Fund) marks our first open-ended fund dedicated to corporate private credit.

Building on the success of our closed-ended Wingate Corporate Credit Fund series, Horizon will provide investors with access to a diversified portfolio of private credit opportunities, targeting a return of 1-month BBSW + 6% p.a. (net of fees and expenses)¹.

Since launching our corporate credit strategy in 2018, Wingate Corporate Investments (WCI) has cumulatively financed commitments of ~\$1.0bn across a breadth of industries and funding purposes, achieving annualised net returns of ~12.3%² (excluding equity upside and net of management fees) with nil capital losses.

Investment Mandate

Horizon will provide financing either directly (bilaterally) or through a club (syndicate) structure to borrowers seeking capital for a range of purposes. The Fund is focused on delivering stable, attractive, risk-adjusted returns, with an emphasis on capital preservation. Horizon will primarily focus on the following four categories:

 Direct Lending	Mid-Market / Opportunistic Credit Flexible, event-driven financing to middle-market borrowers for a range of situations, such as mergers and acquisitions, growth capex and bridging finance.
	Sponsor-Backed Finance Financing for companies owned or controlled by private equity sponsors, typically used to fund an acquisition, refinancing or capital structure optimisation.
 Specialised Finance	Structured Credit Structured credit solutions to non-bank lenders, secured against loan receivables and other financial assets, typically issued by private and public warehouse trusts.
	Asset-Backed Finance Structured finance solutions secured against physical assets such as fleet, commercial equipment, yellow goods, livestock and other tangible assets.

Horizon may invest in senior, mezzanine, and junior instruments. For corporate exposures, WCI prefers senior, secured positions. Horizon may invest in Mezzanine positions in warehouse structures and larger sponsor-backed businesses. Horizon also retains the ability to receive equity warrants and/or options as part of its facilities, which may further enhance investor return.

¹ This is a pre-tax target only and Horizon may not be successful in achieving these returns. BBSW means the bank bill swap rate displayed as 'Mid' for a one-month tenor on the ASX Benchmark Rates webpage at or about 10.30am (Sydney time) on the first Business Day of each calendar month. As at 30 April 2025 the mid-BBSW rate is 4.0%.

² Data as at 31 December 2024. WCI returns reflects the gross weighted annualised average IRR (~13.5%), across all realised investments since strategy inception net of a 1.25% management fee (pro forma for Horizon). This IRR is prior to tax, performance fees and any potential equity upside from shares or warrants. Floating rate loans are priced with reference to the Bank Bill Swap Rate which may increase or decrease over time, which may respectively increase or decrease the yield. Past performance is not necessarily indicative of future results.

³ Investments are still subject to risk, including loss of capital.

⁴ Wingate and its affiliates may be entitled to deal establishment and arranger fees in respect of investments of Horizon. Such fees will be allocated 50% to Horizon for the benefit of the co-investors.
